

Prince2 (2017) Practitioner

Delivered by Brian

Programme Overview

The aim of this training event is to provide delegates with an in-depth knowledge of PRINCE2 project management method in order to prepare for the Practitioner exam. All delegates will be required to have completed the Prince2 Foundation course & exam.

The course follows the standard syllabus issued by the PRINCE2 Examinations Board, which focuses on the PRINCE2 methodology and how this is applied pragmatically to real construction projects.

Why Prince2?

Gaining leading edge project management skills, PRINCE2 certification will give you the fundamental skills to feel confident in the managing projects successfully within the workforce.

Who Should Attend?

The aim of this course is to prepare people who have already passed their PRINCE2® Foundation exam to move to the 'next level' – the PRINCE2® Practitioner examination.

This course is also suitable for delegates wishing to re-register their PRINCE2® Practitioner Qualification.

Course Objectives and Learning Outcomes

- Delegates will understand the PRINCE2® process model and apply the PRINCE2® processes
- Design a robust and appropriate project organisation
- Apply appropriate controls at different levels and at different points in the life cycle of a project
- Take the PRINCE2® Practitioner examination paper.

Certification

Delegates will take the PRINCE2 Practitioner exam at the end of day 2.

Other Course Details

The follow-on course would be the Prince2 Practitioner course.

Course Content

This course concentrates on practical case studies in the application of Prince2 and will lead directly into the exam on the second day. These case studies are also mock exams in preparation for the practitioner exam.

Project organisation
